

A truly multi-purpose building! Known as Block G this building consists of a ground floor housing the Principal's & Secretary's offices, Canteen, Toilets and a Shelter Area. The first floor has a library, Seminar room, Offices and 6 classrooms; the second floor has a Multi-Purpose Hall with a sprung timber floor, stage, change rooms and a lounge.

This is the second major development by Coleman & Fairburn at this school. In 1995 a \$1.5m classroom building was completed, supervised by the same architect.
