Coleman & Fairburn was one of a number of contractors asked to submit design and construct proposals to Allforks Hire. After some negotiation, we were successful in being awarded the project. Conventional slabs on pier and beam footings were used in conjunction with tilt-up wall construction. Offices and amenities were provided at first floor level on a suspended floor. Tiled floors and epoxy coatings have been used extensively to facilitate cleaning of the forklift servicing areas.

NEW WORKSHOP & OFFICE, SILVERWATER

INDUSTRIAL

LOCATION 40 Egerton Steet Silverwater

YEAR 1998

BUDGET \$590,000
