Coleman & Fairburn's joinery shop had fitted out the bedrooms, reception & restaurant areas of the original hotel. We were now contracted to carry out a small extension to the rear of the 3-storey building.

Walls, floors and roof panels were fabricated in precast concrete off-site and were erected to create the structural frame of the building. Ensuite bathroom modules were fabricated off-site and craned into position with the precast concrete elements.

Fit-out work included the lining of the ensuite units, installation of beds, bunks and writing desks.

To date Coleman & Fairburn has been involved in the fitting-out or construction of fourteen Formule 1 and Ibis Hotels for the Accor Asia Pacific Group.
