This stand-alone building was constructed on vacant land at the rear of the school site. It contains science laboratories and preparation rooms. Science benches were arranged around the perimeter of the laboratories, whilst general learning areas were set up in the centre of the spaces. Acrylic roof sheeting to the external walkways and high-level louvres to the laboratories create light and airy learning spaces.

Careful planning and management of construction traffic was necessary to ensure the safety of students and staff whilst building within the school grounds.

NEW HIGH SCHOOL SCIENCE BUILDING

LOCATION Parramatta Marist High School, 2a Darcy Road, Westmead **YEAR** 2002 **BUDGET** \$1,390,000
