Architecture and symmetry meet to provide a special place of worship. This fine example of master crafts and workmanship demonstrates Coleman & Fariburn's depth of expertise and abilities. The church features use of zinc, brick and cement render. The nave faces a decorated iconostasis which conceals the sanctuary. The church also contains a large chapel below ground. The church was constructed and followed a short time later by the Sunday school and car park. The carefully detailed church brickwork was pronounced Overall Winner of 2000 Excellence in Brick and Block Awards.
